The Byre Little Tarrington Farm
Little Tarrington
HEREFORD
HR1 4JA

Dwelling type: Semi-detached bungalow
Date of assessment: 11 January 2012
Date of certificate: 11 January 2012
Reference number: 0257-2829-6891-9292-1981
Type of assessment: RdSAP, existing dwelling
Total floor area: 86 m²

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy use	253 kWh/m ² per year	251 kWh/m ² per year
Carbon dioxide emissions	0.6 tonnes per year	0.5 tonnes per year
Lighting	£61 per year	£49 per year
Heating	£629 per year	£631 per year
Hot water	£110 per year	£110 per year

The figures in the table above have been provided to enable prospective buyers and tenants to compare the fuel costs and carbon emissions of one home with another. To enable this comparison the figures have been calculated using standardised running conditions (heating periods, room temperatures, etc.) that are the same for all homes, consequently they are unlikely to match an occupier's actual fuel bills and carbon emissions in practice. The figures do not include the impacts of the fuels used for cooking or running appliances, such as TV, fridge etc.; nor do they reflect the costs associated with service, maintenance or safety inspections. Always check the certificate date because fuel prices can change over time and energy saving recommendations will evolve.

Remember to look for the Energy Saving Trust Recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market.

This EPC and recommendations report may be given to the Energy Saving Trust to provide you with information on improving your dwelling's energy performance.

AGENTS NOTES

Pughs has joined the Tenancy Deposit Scheme, TDS. It guarantees protection of the deposit; and a fair, independent and expert assessment and settlement of any disputes over its return at the end of a tenancy. This is sometimes needed when landlords and tenants are totally unable to agree the amount due for damage, dilapidation or loss at the end of a tenancy.

The Scheme will allow us to continue to hold your deposit. If there is a dispute over how it should be allocated which we cannot settle, we will be able to refer it to the Independent Complaints Examiner. He will adjudicate within 10 working days of receiving all the necessary papers. There will be no additional charge for the adjudication for future tenancies that are covered by the Scheme.

TENANCY AGREEMENT

All lettings subject to satisfactory references, signing of tenancy agreement and payment of following monies.

The tenancy agreement will be set up on an initial six-month period or shorter by agreement.

Full references required prior to an application being approved, along with a deposit of one months rent (refundable upon departure with a satisfactory inspection of the property by the landlords at the end of the tenancy agreement).

Referencing is charged to the Tenant at a cost of £40.20 incl. VAT per applicant. In the event that references are not satisfactory this fee is non refundable.

Upon satisfactory receipt of references there is a contribution payable by the tenant(s) of £180 incl. VAT towards preparation of Tenancy agreements
