

Borough High Street
London Bridge

Completed in 2021, a highly attractive house arranged over five floors within a boutique development, The Calverts Buildings. The townhouse is built to a high specification with exceptional fittings and underfloor heating throughout. This immaculately presented property would make a wonderful home or a great investment.

The main living space, on the ground floor, allows for ample room for a sizeable living area, a dining table and a generous kitchen with a breakfast bar. The large floor-to-ceiling windows and skylights allow for plenty of natural light and there are doors leading onto a patio.

The entranceway on the ground floor is occupied by additional seating which looks over the living area and patio. This is a very flexible space which could be used as a second sitting room or study.

Set over the top floors you will find four bedrooms and two bathrooms as well as a roof terrace providing fantastic views of London landmarks.

Enviably located, this impressive home is situated moments from Borough Market and the riverside. With easy access to the Jubilee and Northern lines as well as the overground via London Bridge station.
