

A magnificent semi-detached Victorian home (with lift) set in the heart of Kensington, W8 giving way to up to seven spacious bedrooms, grand drawing room with separate dining room, generous family kitchen-breakfast room, six bathrooms (five en suite), terraces and a west facing courtyard garden.

The property is located at the north section of the street where it crosses Tor Gardens and the cherry blossom trees align. Upon entering the building, there is a lovely wide entrance hallway with the lift set back. From this point, you walk into the splendid double drawing room showcasing impressively high ceilings with the original cornice still intact. This room is flooded with natural light from east-to-west through large sash and French windows, further highlighting the beautiful solid oak parquet flooring and period fireplaces. The French windows give access to the garden for outside entertaining.

The lower garden floor to the rear of the building comprises a large family kitchen with handmade and bespoke crafted units including a central island. The room has plenty of space for approximately eight people to dine informally.

The rear section of the kitchen is awash with natural light from the glass extension, giving the owners the pleasure of the afternoon sun. At the front of the building, there is a large formal dining room with ample space for ten-twelve to dine.

The sleeping accommodation occupies the top three floors. Given the scope of the house, the new owner would have more than one choice for their master suite, which is currently arranged as a master bedroom, dressing room and study on the first floor with en suite bathroom and separate shower room.

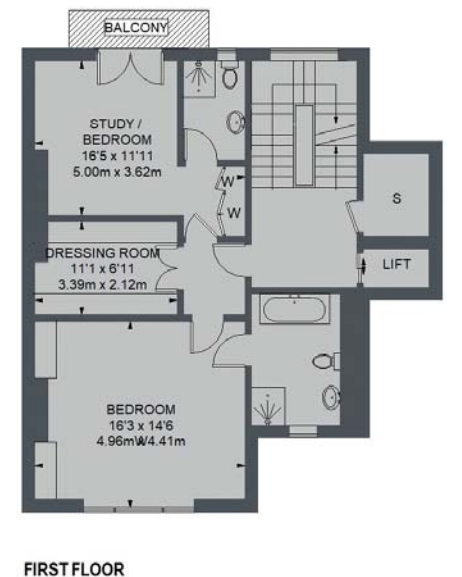

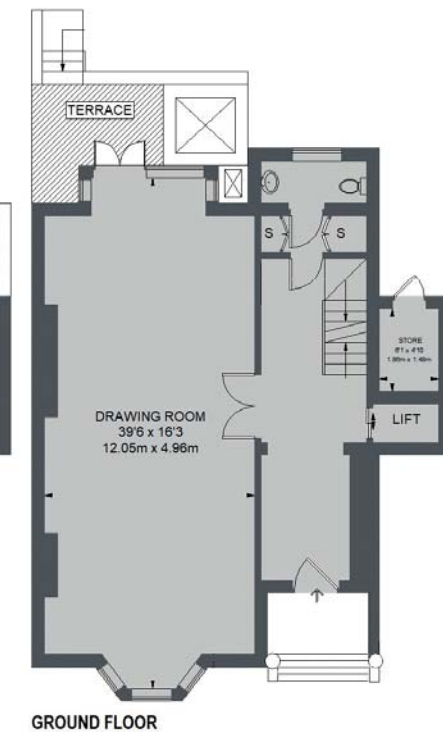

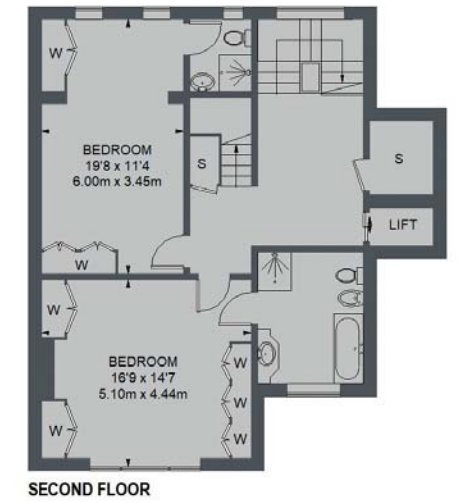

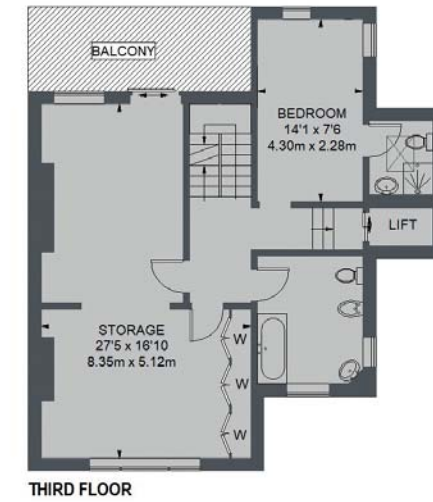

The remaining benefits of this elegant Kensington home are off-street parking for up to three cars, the mature west facing courtyard garden with side access from the street, several small and large storage rooms, utility room and two further WCs.
