Energy Performance Certificate

Dwelling type:

Hot Water

Ground-floor flat

Reference number:

8902-3241-8429-7427-7173

You could

save £ 501

Date of assessment:

24 September 2013

Type of assessment:

£ 255 over 3 years

RdSAP, existing dwelling

Date of certificate:

25 September 2013

Total floor area:

34 m²

Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

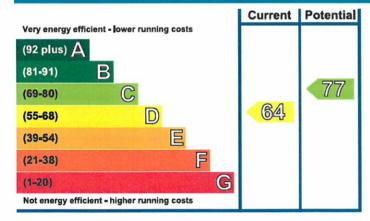

£ 390 over 3 years

Estimated energy costs of dwelling for 3 years: Over 3 years you could save			£ 1,449 £ 501	
	Current costs	Potential costs	Potential future savings	
Lighting	£ 126 over 3 years	£ 69 over 3 years		
Heating	£ 933 over 3 years	£ 624 over 3 years	Variabilities	

Totals £ 1,449 £ 948 over 3 years

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

Top actions you can take to save money and make your home more efficient
