

Mornington Avenue, W14

£3,000 Per calendar month

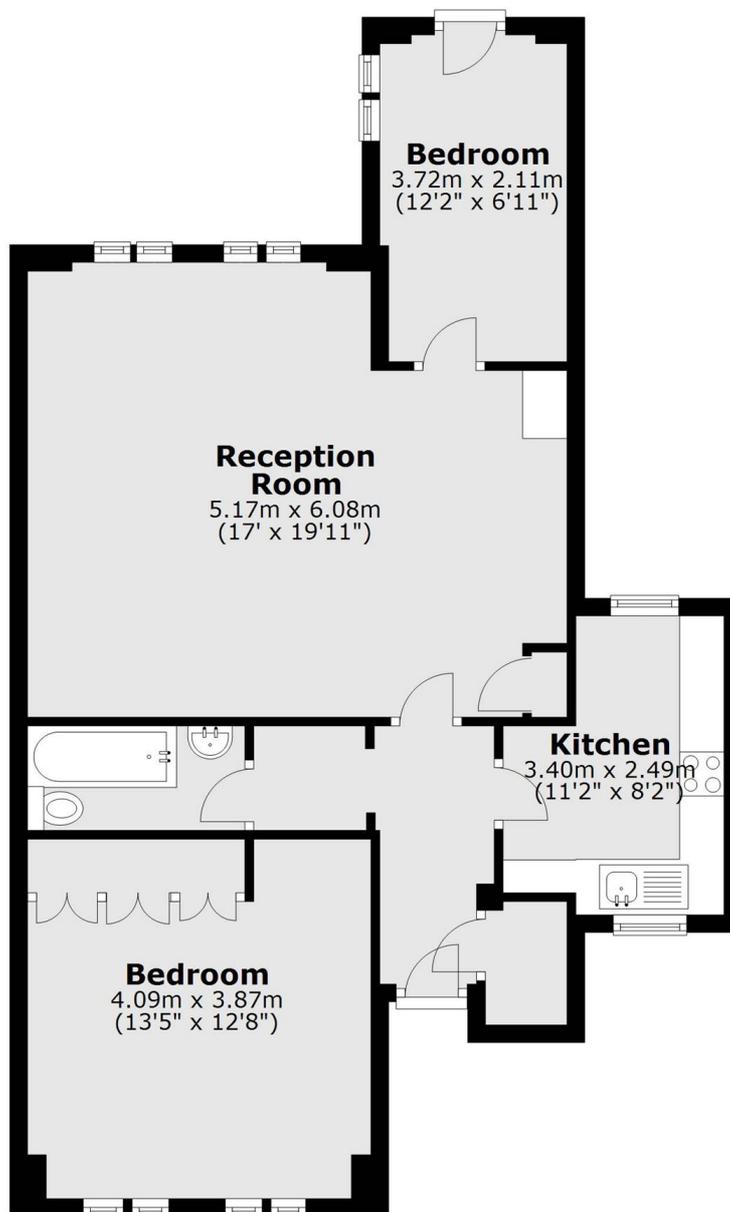

Beautiful Two Bedroom Garden Flat near West Kensington. This is one of those flats that's genuinely hard to come by. Tucked away on a quiet, dead end residential street just moments from West Kensington Underground, this ground floor Victorian flat feels calm, bright and surprisingly private, while still being incredibly well connected. High ceilings, loads of natural light and a huge living room make it a great place to live day to day, but the real standout is the garden, which is extremely rare for the area, especially for a non basement flat.

Mornington Avenue is a sought after residential road located north of the A4 and is close to West Kensington and Kensington Olympia stations, along with numerous shops, bars, restaurants and open spaces on Kensington High Street.
